Apply type theory to transform team performance

The Myers-Briggs Type Indicator® (MBTI®) Master Class Series workshops are designed for MBTI® certified practitioners who wish to deepen their understanding of type theory and its practical application.

The Advanced Team Development workshop draws on decades of research and the experiences of practitioners who have successfully used the MBTI® instrument in their consulting, training and coaching with teams.

High performance teams come in many shapes and forms with the common ingredient being effective interactions between team members. The MBTI® instrument continues to offer those practitioners working with teams key practical and long lasting insights for optimising team performance.

The workshop environment also offers participants a unique opportunity to interact, learn and exchange experiences with other MBTI® certified practitioners who are applying personality type within their organisations.
